Port LaBelle Utility System

To: Roger Greer, Director
PO Box 2340
LaBelle, FL 33975

Dear Roger,

I'm sure you are happy to have your water plant up and Banyan Village water lines expansion behind you. We thank you for all your hard work.

We do, however, come to you today with the last piece that needs to be completed, Seagrape, as we have indications that the "bottom" of the real estate depression has been reached. Therefore, we believe it prudent to move forward to make our properties more attractive to buyers during the approaching recovery rush.

This, along with further arguments that I would be happy to provide to staff and the Board during its next meeting move us to ask that this letter serve as a request to be on the next PLUS board agenda, and kindly request a motion for a schedule of delivery of above said needs. CHL is in process of ordering surveys for the roads and will clear the trees in the next coming weeks subject to a delivery date from PLUS.

Looking forward to your reply.

Best Regards,
Chuck Svirk
